## Link Creator

Hits: 1,539

**Description:** LinkCreator is a robust, user-friendly, simple to use script that takes a list of keywords that you provide by typing or uploading from a file and combines with your web address to create a list of urls. Automatically sorts out redundant keywords. Allows you to add extensions (such as html, html, php, asp) and specify a separator between multiple words. Installation consists of uploading one single php file to your website - no changing permissions or adding databases - easy to use.

### Resource Specifications
