eShowcase Pro

Hits: 2,720

Description: eShowcase Pro Shopping Village Creation and Management software is the simple solution to creating and managing your own internet shopping village (mall). With eShowcase Pro, creating your own internet shopping village is fully automatic and each store automatically built by eShowcase has its own: unique address, fully customizable home page, secure order form, product index page, product description pages with photos, 'contact us' page (with automatic email forwarding), product search page, and Store Admin Menu where the store owner can add and delete products and make any and all changes to his store front as he desires.

Resource Specifications
