They have very patient support. I asked nearly 15 detailed questions before making my final decision. And now I'm happy with this flawless software! I must admit that your script is outstanding combination of a clean easy-to-use interface and latest technologies. Highly recommended!

I tried a number of scripts before this one and at last my search is over. It is a great price and does everything you want and then some more. The admin panel is so easy to use with everything you need to manage your website. A simply excellent script. Thanks.

Very user friendly and extremely easy to install and run. Took a couple minutes for my staff to be familiar with the software. Very useful, has many advanced features, and fast service & support. Definately 5 stars!

This product worked perfectly just "out of box". We needed a match making solution that supports custom profile fields. This product met our requirements and more. The customer support is the best I have seen for this type of product. They helped me to install and customize the product and helped me to do the migration from my old match making system. Another plus is that you get free upgrades. They come with automatic wizards which makes the upgrade process very easy.

Vld personals is one of the best programs I've purchased barnone. Not only does it do exactly what I want it to do, the customization options are only limited by my imagination(and coding skills). I say to you "if you can find a better dating script buy it"

You get free design help, customization help, Tech Support, Extensions, Updates and a very active and enthusiastic Developer and User-base to help you solve any problems you may run into. Have a look at the showcase and see who's using it.
