## Online Project Management and Collaboration

Hits: 3,308

**Description:** nCollab.com is an Online Project Management and Collaboration portal and brings Project Manager, Team Members, and Client together in one space.

You signup as Project Manager, add Team Members, create Client's profile, and start managing your projects. Your team members login remotely and update their progress. The client can login from anywhere and see the project progress.

nCollab is first of its kind software that has introduced client and offers a "Client-based" collaboration, meaning, the client is also a part of the project.

Features include:

- Project Management
  - create, manage, and collaborate projects
- Events Calendar
  - save your important appointments
- Notes Manager
  - a usefull feature to save your important notes
- Address Book
  - create and manage your important contacts
- Internal Messaging
  - an Email like messaging but only between project participants

You can signup for FREE and create two (2) projects.

**A Useful Solution for Online Project Management and Collaboration, Sep**

Reviewed By: code\_review

I like the overall working and flow of this solution. I have used AddressBook (one of its features separately available here) and found it very useful.
