VideoPlayer Xavi

Hits: 4,075

Description: Creating your own customized videoskin is sometimes a big problem. No worries, we create them for you. Not only the skin we made for you, but also the admin back-end where you simply add the place of your .flv file so that you can display it on your own website in minutes. The design we used for this videoplayer is professional, modern and simplicity above all. Check out our realtime demo to see how it can look like on your website.

Resource Specifications

Version:	1.0
