ASP_MultiPowUpload

Hits: 3,898

Description: Multiple files upload component for use with ASP file upload script. It is easy CLIENT-SIDE solution that can be used to perform file uploads from a user machine to the web server. Component is RFC 1867 compatible and includes standard ASP and ASP.NET file upload scripts for IIS web servers. This component is a Macromedia Flash movie supported by most browsers and needs just Flash player plug-in on users-side and any standard file upload script on server-side. This component supports any browsers (tested in IE5+, FireFox 1.5, Netscape, Opera) and client side OS (Windows, Unix, Mac OS).
