## Javascript context (right click) menu

Hits: 12,702

**Description:** There are many of context menu examples on the internet. This javascript context menu is very lightweight, OOP based and item-specific. You can setup it in a few seconds.

**Doesn't work if the page scrolls**, Dec 1st, 2006

Reviewed By: dearsina

This script is brilliant and simple, but it doesn't seem to calculate correctly if the page scrolls, so if your page is longer than the browser window, it will fail to correctly position the context menu if you right-click once you've scrolled.
