Thickbox Gallery 2

Hits: 9,606

Description: If you think about a photo gallery on the web, try Thickbox Gallery 2. This is a program for photo galleries using PHP and ThickBox JavaScript library for images, audios and videos. No databases are required.

Thumbnails and screen-size images with/without watermarking on the fly
Use GD, Netpbm or Imagemagick
Automatic album detection and hierarchical(tree) structure of album list
Support Atom, Google Webmaster tools, bookmarks and mod_rewrite
Valid XHTML1.0 and clean CSS design
And much more...

You want to use Lightbox JS? Yes, Lightbox JS, Highslide JS, Litebox, ClearBox, Lightview, SmoothGallery or FrogJS can be used on Thickbox Gallery instead of ThickBox.
