Description: Review and rating system for Joomla, one of the most powerful Open Source Content Management Systems on the planet.

- * Unlimited sets of rating criteria -with weighted average as an option- allows reviews and ratings of everything on the same site (i.e. movies, books, websites, travel, music, cars, restaurants, hotels, websites, software, mobile phones, service providers, articles, you name it!).
- * Advanced custom field management to specify attributes/specifications for each item.
- * Advanced search using customf fields.
- * User and editor reviews.
- * User favorites list
- * Frontend reviews and content editing.
- * Image thumbnailling and gallery for multiple views.
- * Uses template engine for ease of customization.
- * Uses AJAX technology to eliminate page reloads on user submission of reviews and new items.
- * Many configuration settings to suit your needs.
