Awesome Classified Ad Software & Great Support, Aug 12th, 2008

Reviewed By: afrederc

I purchased this software because I need to launch a classified ad site. I was worried because it was so much cheaper than many other ones. But after installing and configuring it, I realized how powerful it really is. It did everything I needed it to and more. In addition, the support is great. I had a few questions that turned out to be issues with 3rd parties (PayPal & modules). Support answered my questions within 24 hours and got it right the first time!

I highly recommend this script!
