## Free PHP Google Site Search Script

Hits: 9,961

**Description:** This free Google website search script is easy to install, free to use, and offers all the robust local web site search features of popular search engines like Google or Yahoo.

The free PHP Google site search is appropriate for all PHP enabled web servers (Linux, UNIX or windows-based servers). This search script is perfect for small to medium sized websites.

The major features include search spelling suggestion, paged results, easy to modify template pages, 26 supported languages, and native support for English and French. The entire script is fully customizable and open-source. The script also comes with developer support through our online support forum.

It takes less than 5 minutes to upload and install and only requires modifying 2 variables!
