EMovies - Free Movie Listings and Reviews

Hits: 3,036

Description: EMovies Movie Listings and Reviews is simply a webfetch script that uses the Yahoo Movie Listings page to pull its results. Along side with ETS (Easy Template System) EMovies is fully customizable and easy to install on any server. EMovies is SEO optimized and uses CURL to pull its results. EMovies is free for personal use and should not be re-distributed and sold. Copyright information should remain intact as a courtesy to the creator.
