OsDating

Hits: 1,670

Description: Options for search-engine optimization, including meta tags and URL-rewriting. Add multiple administrators, and specify super users. Dozens of global configuration options, easily accessible and changeable within the admin panel.

Advanced Flash-based image editor for your members. Affiliates system with administrator controls and statistics. Advanced, web-based banner management. Specify start and end dates for which banners should be displayed. Powerful extended search option. Search for profiles using any of a dozen search criteria. A built-in, Flash instant messenger is available to your members so that they can send notes to other users who are online. In/out box is available to your members, so that they can easily communicate with others. This is like a built-in mail client.
