Description: *MyGameScript was created to provide a cheap and powerful PHP flash game arcade script to every webmaster. It is packed with functionality and with a clean, structured code. Even the most novice webmaster will be able to set up and edit our script.

MyGameScript is a simple yet powerful script, enabling you to run your own flash game arcade website with full control. We have several different packages available to suit your needs:

- * Basic Package enables you to set up an empty game arcade where you can manually upload and add your own games through the sophisticated admin panel.
- * Standard Package (Basic plus 300+ flash games)
- * Super Size Package (Basic plus 1,350+ flash games)
- * Mega Size Package (Basic plus 2,300+ flash games)
- * Supreme Size Package (Basic plus 3,800+ flash games)

Our packages are very affordable and offer great value for money. We would recommend shopping around but we doubt you'll find a better deal.

I used this script on 4 domains i own,the installation has been pretty easy for me. I emailed support before purchasing this product as i wanted to see how long it would take for me to get a reply if by chance the script dint work.I got a immediate reply.The script also does not take up much server resources and has a good backend admin panel to control and add games. This is almost a turn key solution for a good arcade site! I am sure you will not regret it. Also many games are available.

The Best Site Ever, Mar 13th, 2007

I have tried many scripts but mygamescript.com has to be the best. There are no problems and it's worth every penny. I never got any problems, but if you get something wrong with the script, you can e-mail the support and you'll get the fastest response than any other game script. I recommend mygamescript for anyone starting a game website or an entertainment site. It's the best there is.

This script is easy to manage, game packs are very helpful, saves a lot of time, and as an affiliate, I have received quite a bit of positive feedback from my clients.
