## Deep Log Analyzer Free Edition

Hits: 1,393

**Description:** Analyze your website usage with this freeware. Get 30+ reports on traffic, visitors, referrals, search engines and key phrases, browsers, screen resolution and more.

Deep Log Analyzer features hierarchical reports presentation with interactive navigation, graphical charts and open database format.

DeepTracker technology allows for accurate tracking of sessions and returning visitors using cookies.

View how statistics change over time, compare reports for different intervals, dig deeper into the data with the unique hierarchical reports and reveal hidden patterns in your site stats.
