## Client File Manager

Hits: 613

**Description:** Client File Manager is an excellent utility for websites/businesses that have clients who must routinely deliver them files. Some of these files can be large and really bog down a persons e-mail, plus they could wind up on your home computer, your lap top or work computer. Client File Manager allows you to have all these files stored and easy accessible in one place. Accessible from anywhere in the world an internet connection is available!

### Resource Specifications
