GREAT SOFTWARE, Jan 9th, 2007

Reviewed By: widsmith

I used this software as a calendar map of my daily schedule. It was easy to create categories of events, change color and viewing combinations for those categories and to create multiple calendars on one site. The ability to have recurring events are a plus and the recursions are detailed to happen daily, weekly, bi-weekly and monthly. It is very user friendly, it took 5 minutes to do my first 17 recurring events. GREAT SOFTWARE!!!!
