# MOHA Chat

Hits: 3,228

**Description:** MOHA Chat is a free and open source chat solution for your own site. MOHA Chat comes with a intuitive web client which is fast. Server side scripts can run on most shared hosts and are less resource consuming. Only requires Apache with PHP and MySQL or PostgreSQL on server side. Users can deploy a chat service in a matter of minutes and their users can use their browsers to use the service.

Plug in architecture was introduced with two things in mind; reduce the file size of main product and enable other developers and 3rd parties to contribute to the projec in the form of plug ins.

Currently available plug-ins are

- \* Files 0.1
- \* Rich Text 0.1
- \* Smilies 0.1
- \* Weather 0.1.0.1

## Resource Specifications
