Disable Print Screen

Hits: 3,833

Description: This script can be used to disable copying of your website contents through "print screen". When right mouse click is disable, some bad guys try to grab snapshots of site with print screen button. But this script clears the clipboard memory continuously as long as the page is kept opened.

Good but not for IE7, Aug 19th, 2007

Reviewed By: nunopedrosilva

I've tried the script in my webpage, and it's good, but not for IE7, because it asks me to allow or not access to clipboard, and so, if I say no, people can still printscreen my webpage.
but still, very useful
