## Free Keyword Selector Tool

Hits: 854

**Description:** This Tool lets you compare Keyword Effectiveness Index (KEI), Cost Per Click (CPC) and average Google first page PR. With the Keyword Basket one can quickly compare different keywords to see which keyword (phrase) will be good to optimize your website for. Search volume is cached from Overture and our database contains more than 500.000 Keyword phrases. This makes keyword research faster and makes it possible to study web-trends, as data for the last 6 months is present. If your keyword is not in the list, you can add it with a simple click.

For all keywords the amount of sites that appear in Google for the keyword and the Google Adwords CPC is present. Also the Average PR of Googles first page results is calculated. This tool is excellent for determining what keywords to use in your Search Engine Optimization or Marketing.
