Acritum Femitter HTTP-FTP Server

Hits: 1,336

Description: Easy-to-use HTTP and FTP server is at your service. You don't have to be a system administrator to understand how it works, simply press a button and your friends will be able to visit your computer via the net. They will be able to read your notes, find some info that you published for them, download your files. The server may be accessible to anyone or only to those who have their login and password. The server can work even with dynamic IPs.
