FZCart - PayPal Ecommerce Engine

Hits: 1,959

Description: FZCart was written using MySQL and CFMX 7. Both the front end and admin are fully editable in Dreamweaver. This has all of the needed features for a simple paypal shopping cart. It uses custom headers / footers, uses cfx_jpegresize to automatically generate thumbnails and product detail images. Calculates sale pricing and a few other things. It's aimed for developers who want to develop, brand or modify a cart for thier own use or clients without having to start from scractch.
