## iScripts EasyCreate, private label online web site builder

Hits: 10,521

**Description:** iScripts EasyCreate is an online website building and publishing software enabling web hosting companies, web developers, ASPs, and ISPs to offer branded site builder services to your clients. iScripts EasyCreate is an open source software you install on your server and can integrate with your account manager and supports unlimited users/sites. Your clients can create and maintain a high quality website without any html programming. By selecting from a number of existing templates, the quality of the website is exceptional. There are hundreds of professional layouts in different categories. EasyCreate is perfect site builder for newbies and experts with two intuitive, easy to use, WYSIWYG editors, a simple one and an advanced content management editor. Your clients can add features like contact forms, guestbook, image galleries etc.. by click of a button. It also has an integrated search engine submissions, image gallery etc.. Try our free online demo.
