Availability Calendar

Hits: 9,235

Description: The Availability Booking Calendar is a great Flash/PHP calendar script that can be used anywhere where booking and availability needs to be used. Availability Calendar has an easy to use password protected administration area where you can change availability status for any date allowing half days booking. Availability Calendar script supports any language and custom colors.

An easy installation script is used to install the script on your web hosting account. Then simply copy the HTML code generated in your admin page and paste it on any web page to have the calendar on it.

You can use the script on all your website with a single purchase.

We provide you with FREE installation help!
