Keep your site out of frames

Hits: 561

Description: If you let other people force your website into a frame then they can show adverts right next to your content. This damages your reputation with your visitors as many will not realize that the adverts aren't yours.

Here I outline a simple snippet of code which keeps your site out of frames.

Resource Specifications

Version:	n/a
Platform(s):	linux, windows, freebsd, osx, sun
Date Added:	Feb 28th, 2007
Last Updated:	Feb 28th, 2007
Author:	Jonathan Street
