Oracle class 0.76

Hits: 655

Description: This class allows to develop applications using Oracle 8i or higher. It supports bind variables, IN/OUT variables for PL/SQL procedures and BLOB support. Additionally it features an easy-to-learn API and an error-management which includes auto-sending of E-mails in case an DB error occurred. The class works with PHP4 or PHP5 and requires the OCI8 extension to be enabled in your PHP. A complete documentation and some examples are included, too.

Resource Specifications

Version:	0.76
Platform(s):	linux, windows, freebsd, osx, sun
Date Added:	Feb 28th, 2007
Last Updated:	Feb 28th, 2007
Author:	Sascha Pfalz
