Description: phpscriptlance.com is a "ONE STOP" full service site where a "Buyer" can post a project for FREE and have a highly skilled "Freelancer" competitively bid on your project. We offer Buyer's several different categories to post their projects in and offer you the confidence that their Freelancers can meet your project needs no matter how small or large the project is. Our Freelancers offer a variety of skills and expertise and would most likely be the type of people to work on your project if you were to hire an outside business to do the work. We offer the consumer, or business NO overhead, NO advertising costs, and NO fees whatsoever. We take the hassle out of searching through phone books, placing ads, and looking through newspapers just to find the right person to complete your project.
