Free website monitor - uptime and sms alerts - basicstate.com Hits: 1,345

Description: ENSURE YOUR WEBSITE IS ALIVE. ABSOLUTELY FREE.

- tests your web site every 15 minutes.
- daily uptime summary.
- problem alerts by email and sms.
- multiple alert destinations.
- configurable alert delays.
- easy to use control panel.
- unlimited servers and users.
- add alerts for ecommerce partner sites.

BASICSTATE.COM offers free server uptime monitoring and alert services to subscribers. Alerts can be sent to target email accounts and sms devices, with multiple recipients and escalation levels. Subscribers can also choose to receive additional alerts for many popular e-commerce partners. This is a professional quality free resource for you *and* your clients. It will always be completely free. Not just for a trial period, but forever. If your customers are going to use a server uptime monitor, it might as well be the same one you use! Please feel free to drop by and take it for a spin.
