KubaSoft Link Exchange Manager

Hits: 1,430

Description: Professional Link Exchange Management PHP Script.

Some Features:

- Manage link exchanges, handle link partners and link exchange requests easily.
- Full integration into your existing website.
- Scans website(s) of link partner(s) for reciprocal link(s).
- Tracks incoming and outgoing hits.
- Top Referring Websites: displays a list of top referring websites, ranked by incoming hits.
- More Links: displays a link archive containing all links of existing link partners.
- Anti-Cheat Function: tracking of unique visitors only.
- Link exchange request form with CAPTCHA (image verification) to prevent bots from spamming.
- eMail Notification System: keeps you and your link partners updated through email notifications. You also have the option to customize email and system messages.
- Template Driven: customize email messages and script pages easily.
- Define your own text links or create banner ads which your link partners can use for linking back to your website.
