# Google PageRank on Your Website

Hits: 778

**Description:** PageRank is Google's way of deciding a page's importance. It matters because it is one of the factors that determine a page's ranking in the search results. It isn't the only factor that Google uses to rank pages, but it is an important one. Now you can add a free PageRank image and display Google's PageRank of your website to your visitors - without a toolbar. Its very easy to install - just choose one of the fancy PageRank image designs, grab the HTML code from our website and paste it into your website!
