Jamroom - The Powerful Social Media Platform

Hits: 6,784

Description: Jamroom 3.3 is the ultimate Social Media platform for building your online community! Jamroom has been helping create media based communities for over 5 years. See how Jamroom is powering thousands of successful websites, and is the perfect foundation for your project. Jamroom has full support for images, audio and video (including a full line of custom Flash Players), forums, comments, stores, digital downloads, fans and friends and much more - Jamroom is a powerful platform for creating your successful community, whether it is 10 or 1 million members strong. If your goal is to create a site like YouTube or MySpace, or a more niche site, you'll join a large Jamroom community of fellow members and a dedicated Jamroom support team. We look forward to seeing you online!

This software is the ultimate script for those wanting to make an artist community. They've thought of everything, and even the free version gives you a taste of it's capabilities. The forum is well supported, it has an easy to understand and well documented templating system, and they have 1-click install add ons. I'm very supportive of this software and would highly recommend this over any of it's competitors.
