ASP Folder Gallery

Hits: 8,491

Description: ASP image gallery designed for large folder-based image archives.

Features include:

- * Classic ASP scripting, no 3rd party components
- * On-the-fly thumbnails using asp.net drawing object (thumbs are the only .NET component)
- * Fast folder browsing even on extremely large image trees
- * Dynamic folder recursion; add/delete images and the gallery immediately changes
- * Unique searching by folder name or file name
- * Designate text file to display captions
- * Reports file type, size, pixel dimensions and color depth for each image
- * Select browsing preference, either thumbnails or file name
- * View full size images in separate window
- * "Slideshow" previous/next buttons
- * Compatible with jpg, bmp, gif, and png
- * Download link provided for each image (using "force download" method)
- * Small footprint (under 75kb)
- * Easy installation, no database requirement
- * Requires Windows server with .NET
