Easy Niche Store - ebay rss feed with affiliate links

Hits: 2,255

Description: This simple PHP script is easy to setup and configure. No need for a database and it integrates with the look and feel of your existing site. Only takes a minute to install!

You can...

- RSS any products
- RSS your personal auction listings
- RSS your Ebay STORE feed!

Easily pass through variables such as category, search term, display number and sort order.

The advantages of being able to do this are:

You can add an instant Niche store to your website or existing ecommerce site to 'boost' your product offerings. You can make money through ebay through referrals. The Ebay affiliate code (from Commission Junction) is embedded in all the links. You can build an entire Niche shop site with dynamic links through to ebay products. Making Money with Ebay

The script simply links dynamically to the product items and feeds them through to your website. All seamlessly integrated into the "look and feel" of your existing website.

Works with Joomla, Wordpress & Zencart too!
