hnGuestbook - Ajax Guestbook

Hits: 9,523

Description: hnGuestbook is a simple guestbook that use flat file to store the messages. That's mean no SQL database is required. The guestbook uses AJAX technology, so you could view the pages, and sign the guestbook without reloading the whole page. Some of features are bad words filter, spam protection, and a simple admin panel to manage the messages.

Simple, fast, free, Jul 11th, 2007

Reviewed By: kublai

It's good when thing work as you expect them to.. this script does exactly that, plus it's very simple to configure and to use, fast and nice-looking. Also fast and precise thanks to ajax technology.
