Simple Photo Gallery V3.0

Hits: 3,452

Description: Simple Photo Gallery or SPG has got to be the simplest Photo Gallery on the web. It consists of one file(Index.php). Simply Place it on your web-server with a folder called pics and there you go, you have a Photo Gallery...This Script does everything for you including making thumbnails.

Yes, it look promising. So, I downloaded it, unzipped it, read the instructions, uploaded it and ran it. I got nothing but a page full of errors. I then email the script writer to ask for help and never received anything back from him.
