# FormXP 2007, 5 in 1: Tell-A-Friend + Formmail + Survey + Poll + Mass Mailer

Hits: 3,151

**Description:** FormXP 2007 is a 5 in 1 Ajax application which includes 1:Formmail Builder, 2:Survey Builder, 3:Poll Builder, 4:Tell-A-Friend, 5:Mass Mailer. We used Ajax technology to make FormXP works like a standalone desktop application than a typical web page. By using Ajax, sending out unlimited email is not a problem with FormXP. The look of your Formmail, Survey, Poll, Tell-A-Friend, Mailing List is easy to customize via CSS HTML template. Special features: It enables administrators to detect user's country, city, region, based on the IP address, option to display CAPTCHA security image code to prevent spam automated submissions. SAVE TIME and MONEY with FormXP 2007 - 5 in 1 today. System requirements: PHP 4.x or higher and MySQL 3.x or higher.
