PHP Links

Hits: 1,986

Description: PHP Links from DeltaScripts offers unique features and is really easy to install through a simple wizard. Features includes: Unlimited Custom Fields (dropdowns, checkboxes, radioboxes and textboxes with options!), Screenshot upload with thumbnails using GD, unlimited categories, unlimited subcategories, Link Checking, SmartyTemplates, SEO Friendly (using mod_rewrite), search engine, detailed page (optional), tell-a-friend, vote, Image security code, meber area, link approval, link letters and more. It has also a database, template and language system that makes it easy to upgrade when we release upgrades. Version 1.1 contains bugfixes, report a resource, all user side language in language file, a new way to choose categories and all emails can be edited from admin area. It also contains advanced paging with numbers and RSS feeds and both Google and Yahoo! sitemaps for better indexing. Try PHP Links today. No Zend/Ioncube encryption at all. Free for non-commercial/no-Google ad usage.
