Minicms

Hits: 721

Description: MiniCMS is a Content Management System that everyone can use! It's easy to install by webdeveloppers, webhosters, webmaster, grafic designer etc. The installation is easy and supplied with a good manual (in dutch and english).

Ready for the future

This CMS generates 100% xHTML valid code, so you can integrate it in every website.

Search Engine Optimalisation keeps getting more important. That's why this CMS can automatically determine the title, description and keywords of a page. These settings can then easilly be eddited by the end-user.

Short summary

Automatic listing of editable files and directories Image uploading and auto-resize
Easy installation Dreamweaver editable regions compatible
100% XHTML valid output and DIV-sites supported Available in English, Dutch, German, Spanish and French! Innova Studio WYSIWYG-Editor, so HTML knowledge is not required.
Works in Internet Explorer, Firefox and Mozilla on Mac, Linux and Windows.
