SpreadIT

Hits: 1,908

Description: Have you seen those "email to friend" links under articles, products or pictures on some websites? SpreadIT will allow you to create your own on any site that you want. This will help you attract more visitors and sales. SpreadIT is the simplest to use script you have ever seen. It requires no installation or configuration. You need only to place a simple HTML link to it and that's all. It just works.
