# Python Code Library

Hits: 986

**Description:** Python Code Library is a powerful multi-language source code Library with the following benefits:

1. Built-in library with 50,000++ lines of code
2. Quick and powerful search engine
3. Powerful printing capability
4. Password protection & strong 448 bits encryption (optional)
5. User notes & attachments handling
6. Favorites & rating support
7. Full integration with \*all\* major programming IDEs

And much more!

Resource Specifications	
<b>Version:</b>	1.8.5.441
