PHP EasyWindows Installer

Hits: 33,237

Description: This installer makes it painless to install PHP 4.3.8 on Windows for the following web servers: Apache 1.3, Apache 2.0 and Microsoft's IIS.

<p>

This installer is a production quality installer that will install Turck MMCache to accelerate your scripts. For high performance and reliability with IIS, PHP as installed as a FastCGI app.

<p>

Includes the following extensions: GD, Interbase, Sybase, Informix, MSSQL7, Oracle, OCI8, IMAP, MySQL (built-in), CPDF, PDF, PGSQL, ZLib, LDAP, MHash, GNU GetText, CyberCash, Curl, DBM, Calendar (built-in), FDF, FilePro, XML, DOMXML, Sablot (XSL).

<p>

Also includes two Open Source class libraries: PEAR and ADODB Database Library.

<p>

Sorry, PWS installation is no longer available. The author no longer has a test machine with this setup.

EasyWindows is the easiest way to install PHP (in the correct place) for PWS (Personal Web Server) and probably IIS as well. I could not have asked for anything better. It even gives you a test file to check if it works. It covers so many different types of DBs.

Give this one a try for sure.
