AJAX ASP Photo Gallery

Hits: 2,475

Description: Based in the top rated free version (http://www.iloire.com/vb-script/online_photo_catalog_vbscript.asp), the AJAX version provides faster response, increased performance and many extra features:

- * New, fast, fast, faster!, most responsive, framesless AJAX interface!!
- * Performance boosted, "hard caching" thumbnail, so they are generated only once.
- * Squared thumbnails, so they are displayed in a tidy way, keeping a nice and clean layout.
- * Layout configurable, located on an external file (see layout example - please download it and open it with notepad).
- * EXIF addon, RSS Subscriptions, Alerts when new comments are posted, easy delete comment functionality.
- * Many minor fixes applied since the free version was discontinued.

AJAX ASP Photo Gallery.....AWESOME!, Mar 19th, 2008

Reviewed By: tmm008

Received code quickly after purchasing. Set up and customized within minutes (and I am not a developer.) The rendering of the dynamic photo gallery is the fastest I have seen. I highly recommend this product.
