J-Board Web 2.0 Job Board

Hits: 2,449

Description: A full featured Web 2.0 job board. Listings with Microformats, Widgets, Tag clouds, submits new listings to social search engines (like Technorati), more RSS feeds than you can shake a stick at, a simple enough theme system so you can call it your own, a language file so you can translate it into esperanto if you want. Now comes with source code and resume plugin so users can add their CV
