Live TV Script

Hits: 3,785

Description: Live TV Script pulls live television streaming video from other websites. It also enables you to add videos from websites such as youtube, dailymotion and veoh. **FEATURES:** 1/ All channels are hosted in other websites. It only consumes limited bandwidth in your website. 2/ Adds videos with only embed code from any video sharing site 3/ Adds also youtube/dailymotion/veoh etc videos 4/ Gain money from Google Adsense or other banner advertisings. 5/ Admin panel can add as many channels as you want, delete channels. 6/ Easy to create new skins using basic HTML or image editing software.
