Straight Downline Cycler Script

Hits: 979

Description: Main Program Features: - 1X(You Set) Downline: New members join using a fee that you set for your program and product. They are placed in the programs straight downline in order. After a member cycles they are automatically placed back in the downline with a free position. Sponsors will receive additional referral commissions for new members and new members auto free re-membership. Each member will also receive their own affiliate website url. - Product Download: Each member sees a link in their members section that contains a description of the product and download/join link. The product can be anything that you have to offer (e-book, safelist, special memberships, tangibles, and non tangibles). - Script is configured to work with PayPal.
