UBB Developers Network

Hits: 1,818

Description: Formerly UBB Code Hacking Hideout, UBB Developers Network is a vibrant community of web developers who come together to share their knowledge and participate in active discussions. If you're looking for another great resource for perl/cgi, html, javascript, and especially UBB forum help, then you may find this place quite useful. This site is an independantly owned and run by coders who volunteer their time.
