# Introduction to PHP for beginner's

Hits: 1,250

**Description:** This is a basic PHP tutorial available for everyone and anyone who wants to read it. It covers: Variables, Comments, Output, Strings, Operators, If...Else, Switch, Arrays, While Loop, For Loop, Foreach Loop, Do While Loop, Include and Require, PHP/HTML Forms and the POST and GET methods. HTML knowledge is not necessary, but HTML is included in some examples in the code, specifically the form part.
