## Feedity - Custom RSS Feed Generator

Hits: 613

**Description:** Feedity lets you can create a custom RSS web feed for any ANY web page! With Feedity you can easily track and monitor changes to your favorite web sites.

Feedity is an RSS generator for web pages without a web syndication format. Feedity will take virtually any web page, and convert it into a fully formed RSS document. Feedity aims to make it easy and possible for anyone to extract and reuse content from any website.
