JavaScript-Reference +Browser/User Agent Support

Hits: 1,656

Description: Navioo.com contains a complete reference of all the built-in JavaScript objects, along with their methods and properties.

Navioo.com also contains an event reference and a reference of the top-level properties and functions that can be used on all of the built-in JavaScript objects.

A reference to all of the HTML DOM objects are listed in Navioo.com.

Navioo.com is an extensive reference source that explains and gives comprehensive, working examples of code in a definitive manner for the JavaScript language (and hence, for the ECMAScript and JScript languages). All elements of the language are covered, including the events, functions, methods, objects, operators, properties, statements, and values.
