## CB Automate

Hits: 343

**Description:** Are you an affiliate marketer? Are you considering becoming one?

If you answered yes to either question, then this software is a must have. CB Automate was created by an affiliate marketer for affiliate marketers. CB Automate takes all of the work out of setting up your own storefront.

Store Click Bank Data on your own server!

A relational database is a powerful thing! Enjoy the freedom of having your own database of digital products! No need to link to the ClickBank website or handle a large text file. Locate the best selling products by category with ease.

Import and update the ClickBank Marketplace feed with the click of a button.

CB Automate handles all of the labor intensive work. With one click, you can update your own database with the latest products from ClickBank. There is simply no maintenance involved. The script will download the latest marketplace feed and insert it into your database.

Never in my life have I seen such junk. It amazes me to know that someone could try to develop a script for Clickbank and not even have the code correct. I had to pay an additional \$225 to have this script modified by a real professional. I mean, just look at the other part of this guy/girls site. Stay far away from this one.

Just my own opinion..
